- Shafi Muslim High School
- Percentage:- 69.8%

SKILLS

Programming Language
python

Web Development
HTML, CSS, JavaScript

DBMS
MySql

Data preprocessing

Data visualization

PROJECT

● **BSc.(Hons.) Computer Science**

In this project, I participated with team in creating a website designed to book appointments for patients. The website is built using the MERN stack. The features include searching for doctors by specialty, show-related doctors, and patients have the feature to book appointments in a time span of a week. The admin and doctor's panels are designed separately.
